Inside the Scripts folder you'll find an "EdiConfig.json" file and a "Gallery" folder containing the scripts next to it. Please download Edi from the link above and use the "Select Game" button to select the included "Edi-Config.json". Then make sure the game is active in the drop-down below it.

Inside the included “Flower Witch” folder, copy the ‘Mod Files’ folder to where the game is installed. Make sure it’s placed next to the “data.win” file, as seen here:
