README

Content Description

Dragon Princess is Hungry Scripts

Scripts intended for the C# application, Edi, created by dimnogro: `https://discuss.eroscripts.com/t/easy-device-integration-for-games-edi-handy-hps-ble-08-2026/108186`
Connects to your devices and forwards commands from the game to play the appropriate scripts.

Dragon Princess is Hungry

The files enabling the game to send commands for device integration.
The game will send scripts to be played during animated scenes when caught.

Shortcut Keys

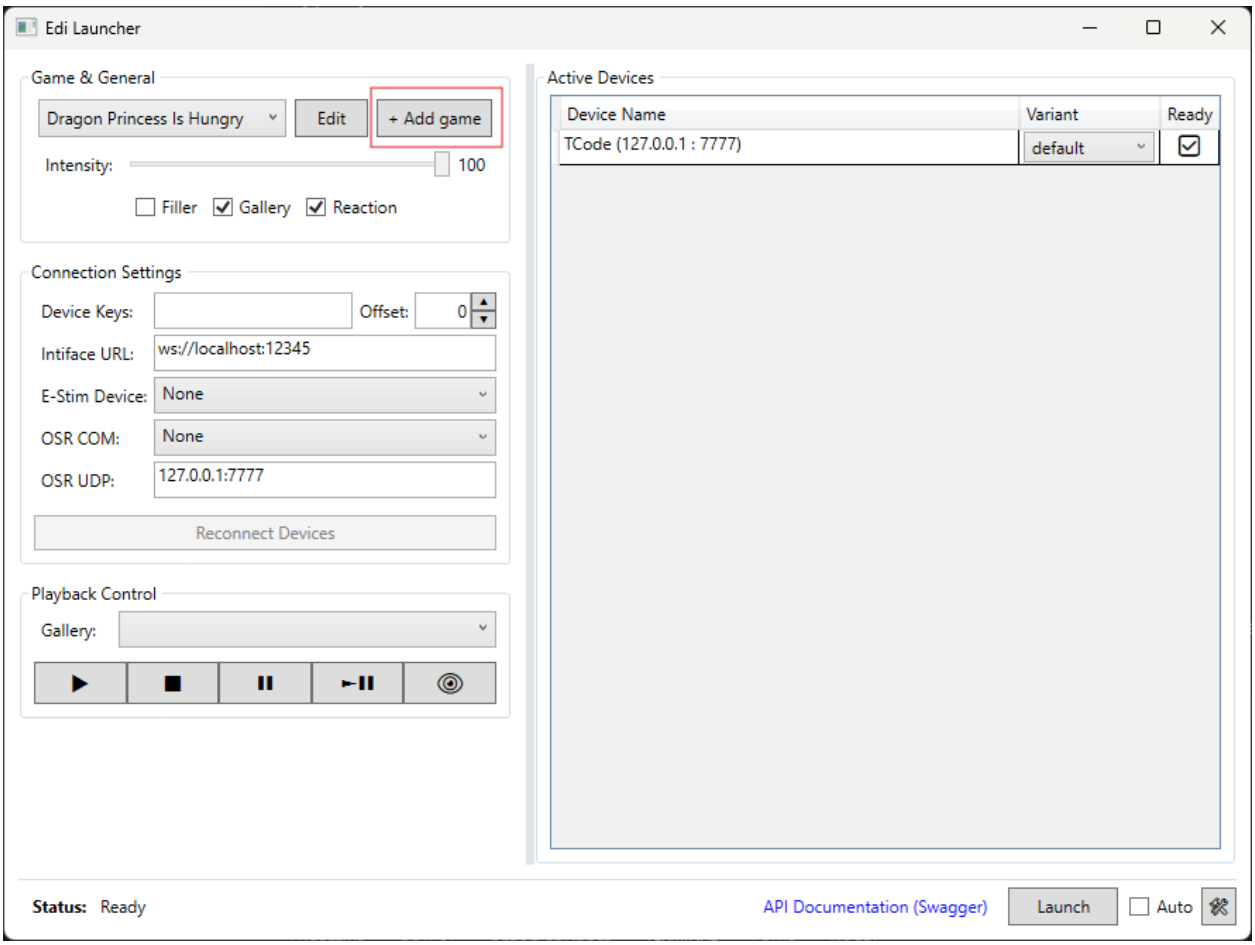

- 5: Pause script playback.
- 6: Resume script playback.
- 9: Set script playback range to 40%.
- 0: Set script playback range to 100%.

Notes before installing

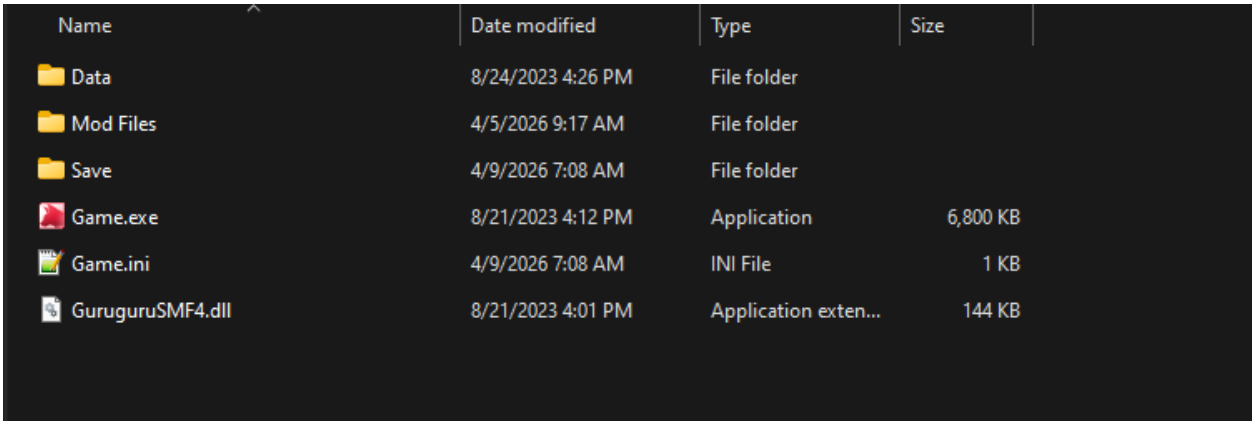

- There are two versions of the mod included. One is for the DLsite version and the other for the patched Steam version. If using the Steam version, make sure the adult patch is applied before installing the mod. The install might fail otherwise.

Installation

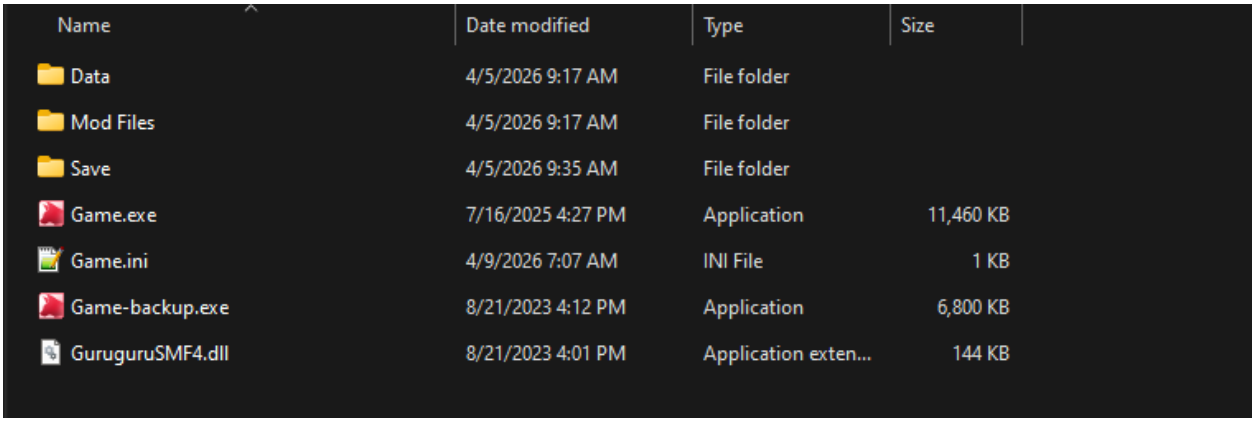

Inside the Scripts folder you'll find an "EdiConfig.json" file and a "Gallery" folder containing the scripts next to it. Please download Edi from the link above and use the "Add Game" button to select the included "EdiConfig.json". Then make sure the game is active in the drop-down next to it.

Inside the included “Dragon Princess is Hungry” folder, find the folder corresponding to your game version, then copy the “Mod Files” folder to where the game is installed. It should look like this:

Run the apply_patch.bat script inside “Mod Files”. This will extract the game files and update them with the modified files. After the script is done, it’ll look something like this:

Launch Edi, making sure the game’s “EdiConfig.json” is selected in the dropdown, connect your device, and then launch the game.
